

1.Work together with 3000-D-EC-000-MC-SPE-0053-00_03C; 3000-D-EC-000-MC-SPE-0052-00_03C 2.Material of structures as per the steel grade in material table.

6.It is not allowed to have the joints of parts without a weld. All gaps and bevels must be welded,

9.Weld seams should be welded according to the approved WPS welding technology, no. 478RHI-PR-02-04.

10. For fillet welds with T001 and T029 booklet numbers, root gap is not included in the leg length, so the fitting gap is going to be included while welding process. For T051 and T052, root gap is included in the leg length, so the leg length

3.Fabricate structures as per the terms of GOST 23118-2012. 4.Place marking at a distance of 500 mm from the edge of an element.

act wetas are roanaes. 7.Perform all welds as per the approved WPS welding process.

5.Punch a melt number on all details.

8.All welds are marked as per ISO 2553-2017.

should not be increased according to fitting gap

If welding applies:

all welds are rounded.
